(a) Preserved motion and all-time envelope
Displacement (mm)
Time (s)
Tip
Rigorous whole-beam bound
(b) Same initial low-mode state
h/h(0)
Time (s)
Magnetic feedback
Unforced, damped
(c) Physical transverse field
B_y (mT)
Time (s)
(d) Physical field gradient
$\|G\|_2$ (T/m)
Time (s)
